

Project of the Year 2005: Nominated Project

Illinois Statewide ITS Strategic Plan and Architecture

Taken together, and working with over 20 partner stakeholders, the Illinois Statewide ITS Strategic Plan helps insure that ITS supports the management and operation of the system and provide improved service and safety benefits to users, and supports key projects throughout Illinois

The focus of this two year effort was to identify specific needs in each region and to insure that ITS investments were coordinated, integrated, effective and beneficial to regional and statewide users.
